

REMARKS

This is an Amendment and Response to the Office Action dated July 28, 2008 in the above-identified patent application.

A. Status of this Application

Claims 1-37 were previously canceled and remain canceled.

Claims 38-57 were allowed.

B. This Amendment and Response

This Amendment and Response responds to several formality matters raised by the Examiner in the last Office Action.

First, in paragraph 5 of the Office Action, the Examiner objected to the Specification for not including a "Brief Description of the Drawings" section. The Specification has been amended herein to add the "Brief Description of the Drawings" section.

No new matter has been added. The "Brief Description of the Drawings" is fully supported by the original disclosure as follows:

Second, in paragraph 6 of the Office Action, the Examiner objected to the drawings as failing to comply with 37 CFR 1.84(p)(5) on the ground that: "Several of the figures do not appear to be mentioned or described in the specification." This object should be reconsidered and withdrawn because, as noted above, every one of Figs. 1-27 is referenced and described in the Specification as filed.

SUMMARY AND CONCLUSIONS

For all of the foregoing reasons, Applicants respectfully submit that this application is now in condition for Allowance.

Respectfully submitted,
